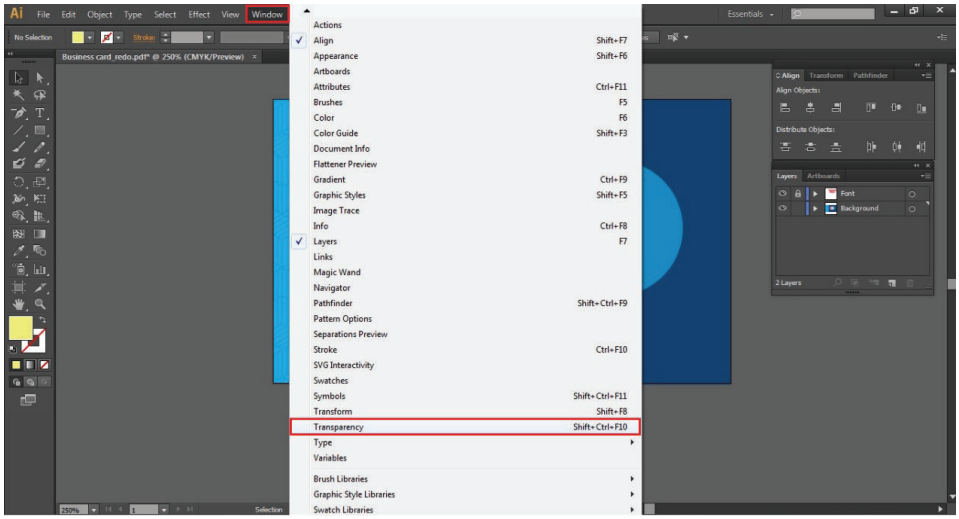
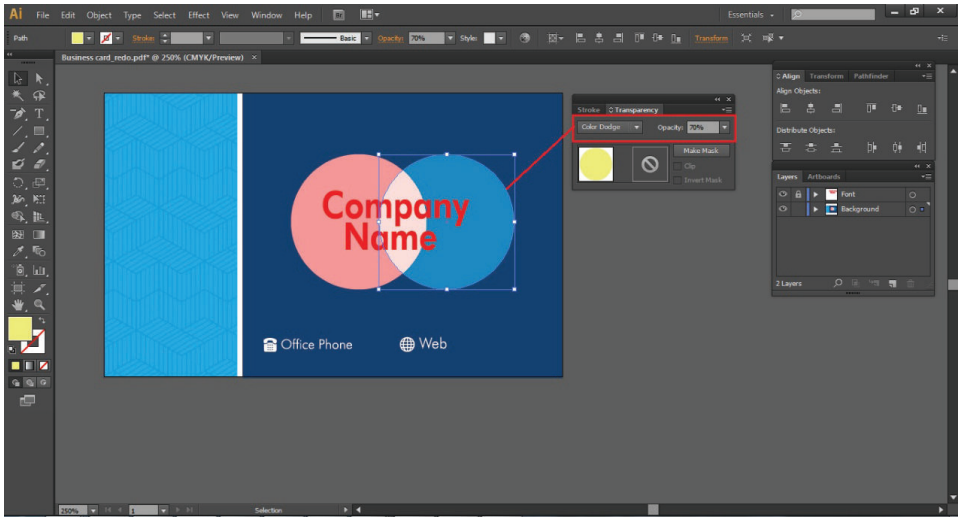
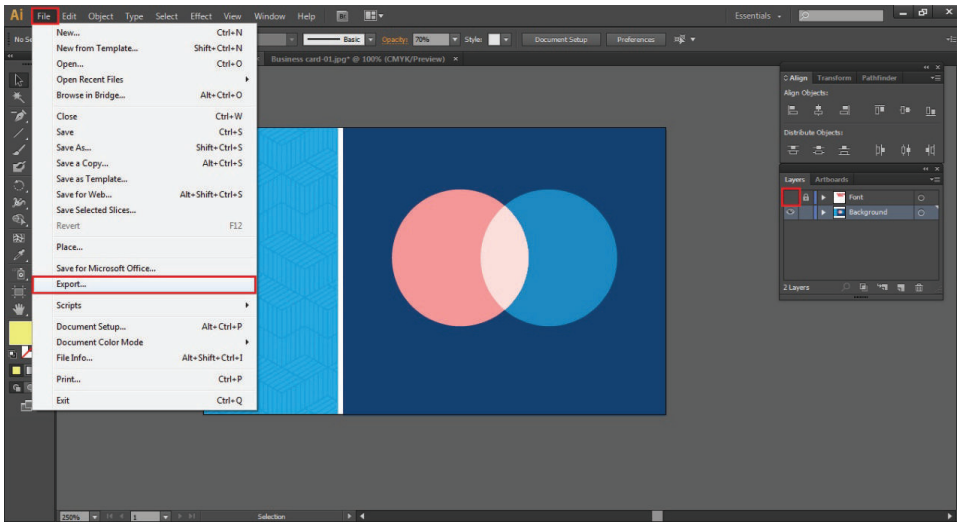
Step 1 : Go to “Window” and choose “Transparency” to check the transparency issues

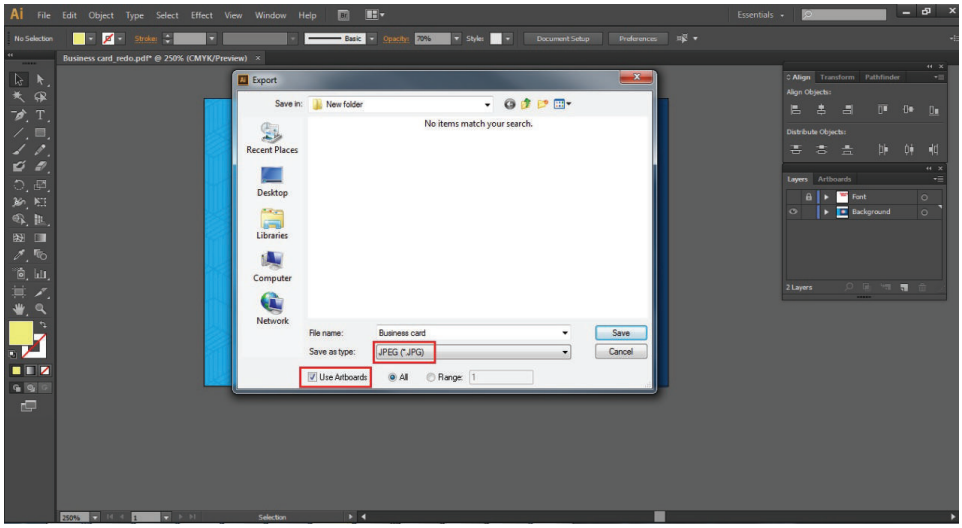




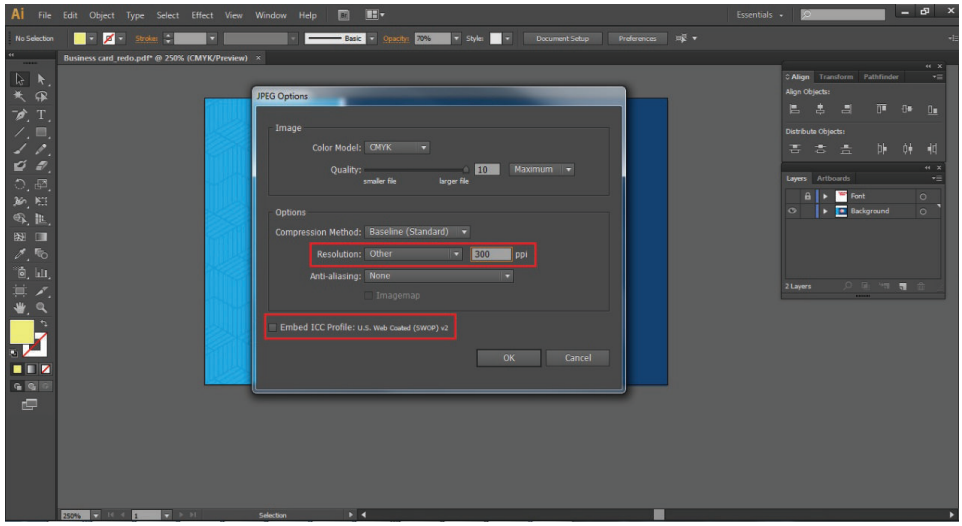
Step 2 : Hide the layer wording to avoid output wording getting blur



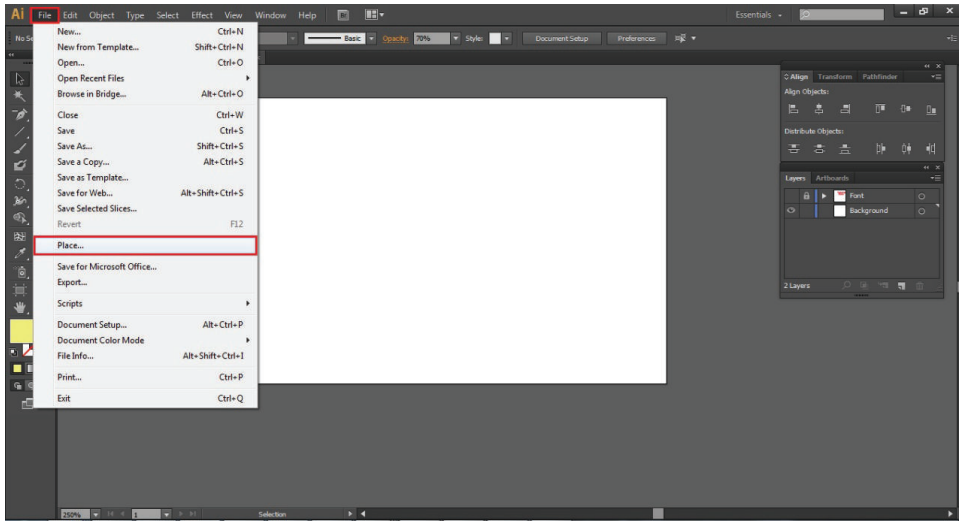
Step 3 : Go to “File” and choose “Export” background to JPEG



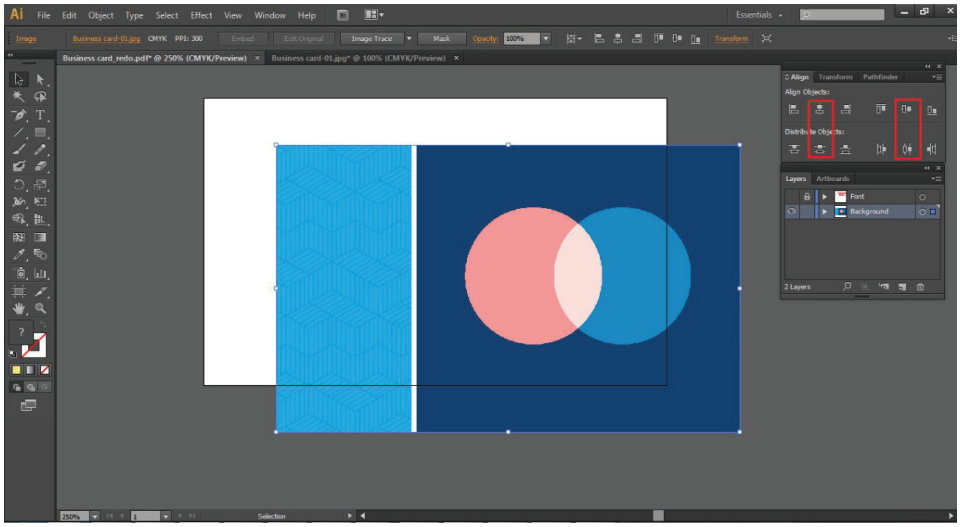
Step 4 : Must tick for “Use Artboards” , “Untick” the ICC profile and make sure the resolution is set minimum 300ppi and above.



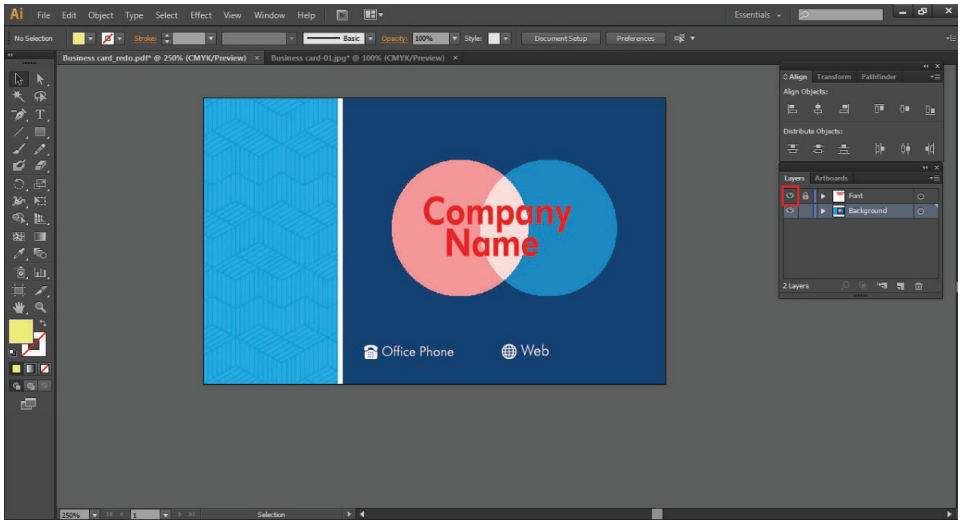
Step 5 : Delete the original background and place in the JPEG background



Step 6 : Align artwork to center



Step 7 : Release back the wording layer



Step 8 : Save as PDF and done
